

Living Things and Habitats

Name

Classification is the organisation of similar living things into groups.

Habitat is the natural home of these living things.

1

Organise (classify) the 'Living Things' list below into **mammals, plants, birds, fungi, invertebrates** or **amphibians** and write your answer against the name.

Fly Agaric Fungus

Woodpecker

Hornbeam Tree

Snail

Blackberry

Red Admiral Butterfly

Bumblebee

White Park Cow

2

In the picture of a landscape, choose the habitats where you will find these living things and draw a line from the photo to their habitat in the picture.

Living Things - Autumn
