

# Living Things and Habitats

**Name**

**Classification** is the organisation of similar living things into groups.

**Habitat** is the natural home of these living things.

**1** Organise (classify) the 'Living Things' list below into **mammals, plants, birds, reptiles, invertebrates** or **amphibians** and write your answer against the name.

Frog

Woodpecker

White Park Cows

Pyramidal Orchid

Chalkhill Blue Butterfly

Bumblebee

Blackberry

Hornbeam Tree

**2** In the picture of a landscape, choose the habitats where you will find these living things and draw a line from the photo to their habitat in the picture.
