

Living Things and Habitats

Name

Classification is the organisation of similar living things into groups.

Habitat is the natural home of these living things.

1 Organise (classify) the 'Living Things' list below into **mammals, plants, birds, reptiles, invertebrates** or **amphibians** and write your answer against the name.

Frog

Woodpecker

White Park Cows

Pyramidal Orchid

Chalkhill Blue Butterfly

Tor Grass

Bumblebee

Hornbeam Tree

2 In the picture of a landscape, choose the habitats where you will find these living things and draw a line from the photo to their habitat in the picture.
