Hist Env Potential	Land Use	Phase 2 projects	Phase 2 costs	Mapping	HER updates	Actions	Public Heritage - Existing	Public Heritage - Potential
Significant multi-period archaeology from LUP&Mesolithic to present day - projects ongoing with KCC and SWAG including ongoing excavation of 'barns' north of manor site and proposals for environmental assessment of the ponds with LTC funding. HER is up-to-date.	Mixed woodland, public open space	SWAG ongoing fieldwork, Randall Manor pxa. SWCP booklet, ponds research, LIDAR, information boards up-to-date, other ideas! Project archiving and HER updates, support for SWAG	Costs covered by LTC L&B funding to end of 2024/5 FY - after March 25 financial support for px for SWAG. To discuss with Tim	Provided	No	Discuss with Andrew and Tim	Extensive. The Shorne visitor centre has a whole section of interpretation dedicated to heritage within the park including finds display, Lidar board and touchscreen. The main panels at the park talk about the heritage trail. Trails are mapped on a leaflet which is available online https://www.kent.gov.uk/leisure-and-community/kent-country-parks/find-a-kent-country-park/shorne-woods-country-park/getting-around-the-park . These include a Waymarked Heritage Trail - including onsite heritage panels - and Sculpture Trail which includes heritage. Shorne Woods Archaeology Group maintain the Shorne Woods archaeology website http://shornewoodsarchaeology.co.uk/ Booklet in prep - equivalent to the CLD one	Continue support of SWAG ongoing fieldwork, post-excavation work and archiving, thus contributing to the Events and Information theme
Significant and designated heritage but below-ground archaeological potential uncertain. For history of CAMS and NT work see: https://www.nationaltrust.org.uk/visit/kent/cobham-wood-and-mausoleum/the-history-of-cobham-wood-and-mausoleum	Cobham Hall Des RBG and Woodland	Discuss with NT - but more detailed historic environmeln review of existing data might be the place to start	Uncertain at this stage	Shapelfile	Yes - from existing survey data	Discuss with NT as part of NNR project	No information was provided as to public heritage information for this site. However it has been established that there are web based materials on the National Trust website which have the potential to be enhanced https://www.nationaltrust.org.uk/visit/kent/cobham-wood-and-mausoleum https://www.nationaltrust.org.uk/visit/kent/cobham-wood-and-mausoleum/our-work-at-cobham-wood-and-mausoleum	Enhance existing offering?
There is a shaft in one of the plots. Toe memorial. Pal potential. Uncertain below-ground archaeology but likely high potential	Woodland	Discuss with Mike and partners- could be good site for LIDAR survey and then ground truthing, woodland archaeology etc. Survey work below the Toe Memorial	Uncertain at this stage	Paper ma	Yes - but survey needed	Discuss with NNR partners	Nothing bar reference to a memorial erected for Lord Darley's Toe which is referenced on various websites http://shornewoodsarchaeology.co.uk/cobham-woods-walk-and-monument-find https://geoffrantiler.blog/2020/07/13/memorial-to-lord-darleys-toe-1835/ http://shornewoodsarchaeology.co.uk/cobham-woods-walk-and-monument-find/darley-toe-memorial-feb-2022	The Darley Trail skirts the northern boundary of the site and could potentially have a spur into these plots
High potential as recognised by extensive work by David May. Significant evidence for Mesolithic activity and possible Pal. Lots of Data. Significant multi-period potential	Mixed woodland and cultivated fields	Liaise with partners and David May to see what support could be provided. Secure information for the HER and help with publishing existing data and interpretation before considering new surveys	Uncertain at this stage	Shapelfile	Yes	Discuss with David May and NNR partners	Information board at Whiteley Rise entrance has some heritage information. Otherwise references in Shorne Woods archaeology website and in a published book available in the main county reference library.	Publication and promotion of existing archaeological data including as popular booklets

Significant including 2 SAMs and RPG of Cobham Hall. KCC and SWAG have undertaken research here. HER needs updating. Work by Victor Smith has been added to HER	Mixed woodland	Update HER by collating existing data. Then options for considering future research. More interpretation could be considered.	Options for LTC project input if scheme goes ahead. Estimate of this stage of contribution of £1500 towards costs of collating existing data and updating HER.	Freehand Yes	Talk to Woodland Trust and AM/SWAG	Heritage incorporated into the site management plan. Summary digital information pertaining to heritage is provided on the Woodland Trust website pages for the woods. Several on-site interpretation panels relating to a Bronze Age barrow and World War II camps.	land parcel has the potential for future research and for additional/enhanced interpretation; this could for example look at the use of the area when part of the park for Leisure, Recreation and Sport – particularly hunting; a number of kennels are marked across the site on 19th and early 20th century mapping and the high ground on which The Mount is located overlooks open areas in the wood, perhaps hinting at the presence of a hunting stand.
West Park, Cobham Geophysical Survey, KAS (Kent Archaeological Society) Magazine, No. 109 (Summer 2018) pages 16 - 17. Written by Trevor Bent. Cobham Hall's lost avenue discovered.	Mixed woodland and grassland?	Update HER by collating existing data. Then options for considering future research.	Uncertain at this stage	Shapelfile Yes - from geophys	Provide Kent HER with copy of KAS Mag for Event record. Discussion options with GBC	Unknown	Unknown
Only record on HER is for Camer Park as designated historic, park and garden of 19th century date. Archaeological potential could be quite good if protected from modern cultivation by park status.	Public park with mix of woodland and open areas	This could be a good site for survey as there are no records of archaeological work having been undertaken here. LIDAR and geophysics with a detailed historic landscape survey (NT style) for the park. All projects should be considered as outreach opps for public engagement similar to St Andrews Gardens in 2024	Could be significant costs if work commercial - potential for community project where funding could be <£5k	Shapelfile Yes - but surved needed	Talk with GBC	Brief summary of historical background (as a park) on the Explore kent website	On the basis of the available information it could contribute to the Landscape and Environment theme, as a 'Pocket' country house set in a mini-park, which could be compared and contrasted with the higher status country house at Cobham Hall and its landscaped park of the type the rising gentry were seeking to emulate. This could be achieved through additional research the preparation of information panels/ web based data.
Multi-period. John Jackson has undertaken fieldwalking but results not on HER. Understood that there has been fieldwalking on both sides of the railway. LBs CA at Upper Bush and Luddesdown - assumed not to be within the areas but NNR land contributes to setting - see LCA. Lots of recorded finds in the northern plots which indicates archaeological potential	Vineyards etc	Support legacy project of John Jackson's field walking and report and add to HER. The look at that and MD finds and consider options e.g. LIDAR, airborne geophysics. Consider latest technology. Cultivation opportunities for fieldwalking/surface artefact collection, more controlled metal detecting (what is partner approach to this?)	Uncertain at this stage - talk to Shapelfile	Yes - but legacy project to resolve	Talk to John Jackson about fieldwalking data - contact details	MCDV UK advise that they have little public heritage information on their website and no physical heritage information. They own Luddesdown Court but do not have anything digital for the public.	potential public heritage information relating to this site but can be anticipated to contribute to themes such as Agriculture, Settlement; and Industry. A rapid scan of historic mapping indicates Rabbit Warrens off Warren Road, and Hop Gardens on tithe north of Luddesdown. The tithe notes a Brick Kiln Field in the vicinity of 'Bowling Alley' – itself a curious placename. The estate is crossed by a number of footpaths including North Downs Way and the Wealdway which provides the opportunity for the development of heritage trails which do not intrude onto the private land, perhaps with occasional open days onto the wider estate.

Wrotham Water	17	N/A	NT						

Significant multi-period. Better understood in the north closer to Watling St. Work by CAT before FC and also SWAG at Owllets (Iron Age/RB activity)	Mixed woodland and pasture	Check with FC on the status of any synthesis of existing survey results into a single 'site' historic landscape survey assessment. If not done then this would be a good starting point before considering an new survey work.	Uncertain at this stage	Freehand Yes - potentially following review	Discuss with FC and NNR team	Physical public heritage information comprises a display case opposite Shorne Common, at the top of Butchers Hill, which shows the local footpaths as well as some information on the history of the area.	synthesis of the available existing surveys should provide a basis from which the Forestry Commission could enhance their website pages on this site. There is also the opportunity to integrate heritage info trail guides and possibly create heritage specific trails. A possible key theme that could be explored at this site could be the development of transport in the region given the proximity of both Watling Street and HS1.
Significant potential. Some past SWAG work e.g. on pond	Buildings and grounds	Past SWAG work needs review and additions to HER then potential for field work projects such as geophysics and TPs etc. Schools information	£500 for HER entry and £1500 for support for future fieldwork if undertaken by SWAG - small scale projects	Freehand Yes - but further work needed	Discuss options with SWAG/AM and NNR team/ partner	No info provided on audit request. basic online searches have established that there are number of online sources pertaining to heritage, typically focussed on the hall and gardens: The Hall and Grounds https://www.cobhamhall.com/historic-house/ https://www.visitkent.co.uk/attractions/cobham-hall-1966/ Lord Danley's Garden and the South Pleasure Grounds https://historicengland.org.uk/research/results/reports/116-2003?search=15463&searchType=research+report The North Pleasure Grounds https://historicengland.org.uk/research/results/reports?searchType=research+report&search=15431 Historical Background http://shornewoodsarchaeology.co.uk/cobham-landscape-defectives-research-note-4-manor-cobham-hall The Repton Pond http://shornewoodsarchaeology.co.uk/repton-pond-at-cobham-hall Included in Cobham landscape Defectives. A Community Archaeology Odyssey (KCC 2019) Darnley Trail skirts it using public footpaths. School has occasional open days	As the Cobham Hall site (and the adjacent golf course) are essentially private land with limited public access there are likely to be few opportunities to install public interpretation panels on site. Information could therefore be promoted on web-based platforms. Trails could utilise public footpaths, which link to points of interest and signpost more detailed background information
Hambeam along Bowers Road. No KCC SWAG work in this parcel						The parish council have advised that there is limited public heritage information is available. The history of the parish is summarised on the Parish Council website. Parish council website does link to Shorne Woods website. A book was published in 1987 which includes the history of the common land: 'Shorne, The History of a Kentish Village' by A.F. Allen.	N/A
						The parish council have advised that there is limited public heritage information is available. The history of the parish is summarised on the Parish Council website. Parish council website does link to Shorne Woods website. 3.59 A book was published in 1987 which includes the history of the common land: 'Shorne, The History of a Kentish Village' by A.F. Allen. There is a display case opposite Shorne Common, at the top of Butchers Hill, which shows the local footpaths as well as some information on the history of the area. The Parish Council advise that the display case is in need of repair and they are currently in discussion with KCC.	Board repair provides an opportunity to enhance existing offering
						An onsite panel at Trosley installed in 2022 on the World War II training camp at the top of Quarry Field. Historical background is provided on the website https://www.kent.gov.uk/leisure-and-community/kent-country-parks/find-a-kent-country-park/trosley-country-park/about-trosley-country-park/history-of-trosley-country-park	As a public space at the southern end of the NNR it has the potential to act as a hub in a similar way to Shorne Woods in the north. It is well served by existing footpaths/bridleways: the North Downs Way crosses through the park, running into the adjacent Birling Estate, the Holbrough Woods, Silverhand Estate and into Ranscombe Farm Country Park. The Westdown crosses the North Downs Way in the Birling Estate and moving north runs through the Holbrough Woods, Silverhand Estate and also skirts Camer Park.
						No information was provided as to public heritage information for this site which lies to the south-west of Trosley Country Park. It was not included on the original KCC list. It is a historic farm owned by the National Trust (https://nationaltrustbarns.esdm.co.uk/LLWS/LLFiles/54809/original_54809.pdf). Controlled metal detector survey, with multi-period finds, has been undertaken on the farm, but not within those parcels proposed as part of the NNR	TBD

Birling Estate	16	N/A	Birling Estate
----------------	----	-----	----------------

The estate website hosts basic information on the history of the estate and some of the more unusual ancestors <https://birlingestate.co.uk/news/our-history/>.

The Birling Estate has hosted and landscape archaeology day (Bannister and Pittman 2010) and been subject to an Historic Landscape Assessment (Bannister 2009), and Archaeological Assessment for Whitehorse Wood (Bannister 2010). As a result there is a robust baseline relating to the historic landscape of the woodland

3.82 Given the range of remains present this site has high potential in terms of public heritage - has landscape features such as wood and parish banks, holloways (potentially prehistoric), the PilgrimsWar, WW2 Officer Training Camp. Landowner has allowed previous works in the past and there are public footpaths. Community archaeology projects plus heritage trails?
